

Phonics games.

As well as the apps and websites we have shared on the school website, here are some of the games we use to practise during our phonics time.

Our phonics is split into phases, children are working on different ones. They should be practicing the ones they are learning and once they are learnt for them to respond quickly, they can then move to the next phase. Even if it's the first sounds they learnt, it is good to go back and recall them as much as possible.

In this pack, you can use the resources to play the following games.

Roll and Read - Use a dice or numbered pieces of paper to draw out of a box.

When a number is chosen, they need to read one word from that number row. This is a turn taking game so good to join in and get them to help you with your words. We give points if they are the person to get the last word on that row correct.

Fill the board - This is the same but without the need for a dice or numbers. Person one chooses a sound/word from the sheet for person 2 to say. If person 2 gets it correct they get a well done, if not, they may give you a clue of an action that we have used in class.

Find someone who - If you have a group at home, this is good one. Write the same words on a piece of paper for each person. Everyone then moves around to try and find someone who knows a sound or word on the paper. If they know one, they tell the person and they tick it on the sheet.

Pile and Pick - Cut up the sheet or even better, get the children to make cards with all the sounds and words that they know. Put them in a pile and take turns choosing from the pile to then ask the other person what is on the card. If they get it right, they keep the card, if not, you tell them the sound and it goes back to the bottom of the pack.

Noughts and Crosses - Self explanatory and the sheet is there. You can make your own up with numbers, letters to write or even the chores to do for the day!

Snakes and Ladders - A classic. Choose an appropriate sheet and play. Hope there's a good prize at the end!

Most importantly, we have used these to make phonics fun for them and encourage them to join in and do it with other people to share what they know.

We will try and put some videos on our YouTube channel to show us playing these. **Remember..... Have fun!**

Phonics—Roll and Read. You need a dice - If you haven't got one, you can get an app or write the numbers 1-6 on some paper and put in a box to choose from)
